PROFESSIONAL SUMMARY

Strong foundation in Python, Data Structures, and Data Analysis, with hands-on experience in Pandas and NumPy. Proficient in software development, building web applications, and creating interactive dashboards for data-driven solutions. Skilled in analytical thinking, problem-solving, and developing efficient, scalable applications, with an interest in roles across software development and data analytics.

SKILLS

Languages: Python, Java , JavaScript, PHP
Technical Skills: HTML, CSS, JavaScript, React, Node.js, Express.js, Pandas, Computer Networking
Tools/Platforms: MySQL, MongoDB, Azure, Git
Soft Skills: Problem-Solving, Leadership, Time Management, Adaptability

PROJECTS

AI Resume Analyzer & Job Matching System | Feb' 2024

- Built a semantic matching engine using transformer models to compare resumes with job descriptions beyond keyword matching.
- Implemented explainable AI to provide detailed match insights and skill gap recommendations.
- Designed an intelligent recommendation system for personalized resume improvement.
- Tech Used:** BERT, Django, FAISS, SHAP, PostgreSQL

Online Examination System | Jan' 2023

- Developed a full-stack online examination system with role-based access control and secure authentication.
- Implemented timer-based exams, automated evaluation, and performance analytics dashboard.
- Designed AI-based proctoring features including tab-switch detection, session monitoring, and behavior-based anomaly detection.
- Planned integration of computer vision (OpenCV) for face tracking and suspicious activity detection.
- Tech Used:** Django, PostgreSQL, Tailwind CSS, JavaScript, Python (scikit-learn, OpenCV)

Laptop Price Predictor | Machine Learning Project. | Mar' 2025

- Built a machine learning model to predict laptop prices based on specifications
- Leveraged Python libraries: Pandas, NumPy, scikit-learn for model development
- Created interactive user interface using Streamlit for predictions
- Tech Used:** Python, Pandas, NumPy, scikit-learn, Streamlit

WORK EXPERIENCE

SAGMETIC INFOTECH PRIVATE LIMITED, Mohali, Punjab , India 2026- Present

Role: Business Analyst & Software Developer

Job Responsibilities:

- Acting as a Business Analyst and Software Developer, translating business requirements into effective technical solutions.
- Collecting, documenting, and analyzing client needs for web-based and data-driven applications.
- Designing and developing backend systems and RESTful APIs using Python and Django.
- Building and optimizing data processing pipelines with Pandas and NumPy.
- Developing interactive dashboards and reports using Matplotlib and Power BI to drive business insights.
- Collaborating with cross-functional teams to enhance product functionality and streamline business processes.
- Delivering actionable insights through data analysis to support strategic decision-making.
- Ensuring application performance, scalability, and reliability through testing, debugging, and maintenance.

Projects Worked On:

Project A - ERP/ Business Management System

Developed modules for managing business operations such as users, data entry, reporting, and analytics using Django framework.

Project B- Data Analytics & Reporting Dashboard

Created interactive dashboards and reports using Power BI and Python for business performance tracking and decision-making.

Job Responsibilities:

- Completed 6-month internship in web development, working on real-time industry projects
- Developed and maintained responsive web applications using HTML, CSS, JavaScript
- Built backend functionalities using Python/Django and handled database integration
- Designed RESTful APIs and implemented CRUD operations
- Collaborated with team members using Git/GitHub for version control
- Debugged, tested, and optimized applications for performance and scalability
- Worked with databases (MySQL/SQLite) for data storage and management

CERTIFICATES

- | | |
|---|-----------|
| • Mastering the Art of Effective Communication in English | Mar' 2023 |
| • Free Full-Stack Web Development Bootcamp | Nov' 2025 |
| • Managing Databases – End-to-End Web Development | Aug' 2024 |

ACHIEVEMENTS.

- | | |
|--|-----------|
| • Developed and maintained responsive websites using HTML, CSS, JavaScript, and React improving user experience and engagement | Nov' 2022 |
| • Top Scorer – Achieved 1st rank in Computer Networking subject during fifth semester diploma | Oct' 2022 |
| • Successfully completed 6-month internship with strong performance in web development projects | Jun' 2023 |

EDUCATION

- | | |
|---|---------------------|
| • B.Tech in Computer Science and Engineering
CT Group of Institutions, Shahpur, Jalandhar, Punjab | Mar 2022 - May 2024 |
| • Diploma in Computer Science and Engineering
MVJ Polytechnic, Bengaluru, Karnataka | May 2017 - Jun 2021 |
| • Secondary School Examination (Class 10th)
Emmanuel Mission High School | May 2016 - Mar 2017 |

PERSONAL DETAILS

- | |
|---|
| • Date of Birth: 21-09-2002 |
| • Contact Address: Siwan , Bihar,841233 |
| • Nationality & Caste: Indian, Muslim |
| • Passport Details: Y4381583 |
| • Date of issue: 25/06/2024 |
| • Date of expire: 24/06/2034 |
| • Languages: English, Hindi |
